*Thursday, Oct. 1st*
Friday, Oct. 2nd

8:20-8:30 WELCOME
Príncipe Room
David McCance & Alberto de Leiva

8:30-9:00 KEYNOTE LECTURE: DAVID HADDEN LECTURE
Príncipe Room
Boyd Metzger
A historical perspective on hyperglycemia in pregnancy
Chair: David McCance

9:00-10:45 ORAL PRESENTATIONS
Theme: OFFSPRING
Príncipe Room
Chairs: Ulf Eriksson & Ursula Hiden

Diabetic embryopathy: Addressing the effect of a mitochondrial antioxidant
Higa R, Roberti S, Mazzucco MB, White V & Jawerbaum A

Fetal outcome in rats fed a high fat diet
Wentzel P & Herrera E

Undernutrition during the second half of pregnancy in rats does not enhance the obesogenic effect of overnutrition during suckling in pups but decreases their insulin sensitivity at adulthood
Sánchez-Blanco C, Amusquivar E, Herrera E

Differential susceptibility to diabetic embryopathy of different mouse strains is associated with differential glucosamine utilization
Loeken MR and Jung JH

Epigenome wide changes in DNA methylation and risk of cardio-metabolic disease in 9-14 year old offspring of GDM women and controls

Neonatal hypoglycaemia among newborns of mothers with diabetes and its effect on breastfeeding
Giudicatti G, Poloniato A, Caretto A, Castiglioni MT, Rosa S, Vaglio Tessitore I, Scavini M, Dozio N
**Higher neonatal TSH levels correlate with gestational diabetes and neonatal ponderal index.**

Di Fulvio P, Formoso G, Bucci I, Febo F, D’Incecco C, Di Castelnuovo A, Consoli A

---

**Theme 1: TYPE 1 DIABETES**

Chairs: Helen Murphy & Miira Klemetti

<table>

<td><strong>PRESENTATIONS – GROUP 1 PARALLEL POSTERS</strong></td>
</tr>
</tbody>
</table>
| Príncipe Room | **PP 01**  
Glycaemia during breastfeeding in women with type 1 diabetes  
Achong N, McIntyre HD, Callaway L, Duncan E

| Príncipe Room | **PP 02**  
Characteristics and risk factors for large-for-gestational age infants in a large cohort of pregnant women with type 1 Diabetes  

| Príncipe Room | **PP 03**  
Lower levels of placental growth hormone in early pregnancy in type 1 diabetic women with large for gestational age infants  
Ringholm L, Juul A, Pedersen-Bjergaard U, Thorsteinsson B, Damm P, Mathiesen ER

| Príncipe Room | **PP 04**  
Differentially methylated regions in offspring born to mothers with type 1 diabetes (the EPICOM study) – consequences of the intrauterine milieu and implications for the phenotype?  

| Príncipe Room | **PP 05**  
Predictors of large for gestational age placentas in women with type 1 diabetes mellitus  

| Príncipe Room | **PP 06**  
Sugar and spice and all things nice: an analysis of diet and glycaemia in UK women with type 1 diabetes planning pregnancy (The CONCEPTT-DIET trial)  
Neoh S, Feig D and Murphy HR, on behalf of CONCEPTT Investigators

| Príncipe Room | **PP 07**  
Pregnancy outcome and metabolic control in women with type 1 diabetes: a retrospective study between CSII and MDI treated diabetic pregnancies  
Wender-Ozegowska E, Mantaj U, Zawiejska A, Brzozt J

---

**PP 07**  
Pregnancy outcome and metabolic control in women with type 1 diabetes: a retrospective study between CSII and MDI treated diabetic pregnancies  
Wender-Ozegowska E, Mantaj U, Zawiejska A, Brzozt J
Prepregnancy care for a region: exploring the clinical and economic effects
Egan AM, Danyliv A, Carmody L, Kirwan B, Dunne FP

CHO to insulin ratio in normoweight, overweight and obese type1 diabetic pregnant women
Bitterman O, Fresa R, Bongiovanni M, Visalli N, Suraci C, Napoli A

Temporal changes in LGA newborns and their predictors in women with Type 1 diabetes Mellitus
Mendoza LC, Cuixart G, Garcia-Patterson A, Rabasa F, Chico A, Adelantado JM, de Leiva A, Corcoy R

Prepregnancy care for a region: exploring the clinical and economic effects
Egan AM, Danyliv A, Carmody L, Kirwan B, Dunne FP

CHO to insulin ratio in normoweight, overweight and obese type1 diabetic pregnant women
Bitterman O, Fresa R, Bongiovanni M, Visalli N, Suraci C, Napoli A

Temporal changes in LGA newborns and their predictors in women with Type 1 diabetes Mellitus
Mendoza LC, Cuixart G, Garcia-Patterson A, Rabasa F, Chico A, Adelantado JM, de Leiva A, Corcoy R

Theme 2: GDM
Chairs: Philippe Deruelle & Ewa Wender-Ozegowska

Differences in characteristics and pregnancy outcomes between insulin- and diet-treated women with gestational diabetes

Risk scoring system to triage high-risk GDM patients diagnosed by IADPSG criteria in Japanese women
Yasuhi I, Yamashita H, Kugishima Y

The role of extracellular matrix in determining endothelial function in gestational diabetes

Effect of GDM on feto-placental endothelial barrier differs between arteries and veins
Ulz C, Cvitic S, Desoye G, Hiden U

BETATROPHIN: A new potential predictor of gestational diabetes?
Crisci I, Lupi R, Ursoleo P, Del Guerra S, Aragona M, Lacaria E, Bertolotto A, Del Prato S

Is poor maternal sleep a risk factor for gestational diabetes?
Tan E, Ciantar E, Ellison GTH, Law GR, Scott EM

Sleep related breathing disorders in pregnancy are associated with an increased risk of gestational diabetes: systematic review and meta-analysis
Alghamdi AA, Al Afif NA, Law GR, Ellison GTH, Scott EM
Gestational diabetes and birth weight – an upside down paradigm?
Almeida MC, Amaral N, Dores J

Women with gestational diabetes diagnosed in the first or in the second trimester, are they different?
Almeida MC, Ruas L, Paiva S, Carrilho F

Fasting glucose of 92 MG/DL: prognostic factors and materno-fetal implications

GDM clinical features and outcomes diagnosed with the IADPSG and the Carpenter and Coustan Criteria in the Portuguese population (2008-2013)
Ruas L, Almeida MC, Paiva S, Carrilho F

Theme 3: OBESITY / TYPE 2 DIABETES
Chairs: Roland Devlieger and Marina Ivanisevic

Participation in a lifestyle-intervention study in pregnancy is associated with lower birth weight and lower abdominal circumference in offspring compared to the background population
Tanvig M, Vinter CA, Jørgensen JS, Ovesen PG, Christesen HT, Jensen DM, Wehberg S

Parity and type 2 diabetes – Studies of insulin resistance and beta cell function in women with multiple pregnancies
Iversen DS, Støy J, Voss TS, Kampmann U, Madsen LR , Møller N, Ovesen P

Adherence to IOM guidelines for weight gain during pregnancy in an Italian cohort study
Lacaria E, Romano M, Rossi M, Battini L, Aragona M, Penno G, Del Prato S, Bertolotto A, Bianchi C

Pregnancy weight gain and offspring in a diabetes and pregnancy reference unit
Cabrer M, Bestard M, Wos M, Soledad Gogorza M, Montoliu E, Pereg V, Codina M

Obesity and pregnancy complications: the emerging problem of growth restriction applying Gardosi customized growth curves
Rambaldi MP, Biagioni S, Simeone S, Marchi L, Serena C, Ottaneli S, Mello G, Mecacci F
Effect of multiparity on the risk of development of type 2 diabetes
Almahmeed B, Shah B, Mukerji G, Booth GL, Feig DS

10 years of improving outcomes for women with type 1 and type 2 diabetes during pregnancy
Owens L, Egan A, Carmody L, Dunne FP

Levels of depression and anxiety are higher in pregnant women with a history of bariatric surgery compared to normal weight and obese pregnant controls

Assessment of methyl-group donor intake during the course of pregnancy using a validated food-frequency questionnaire
Pauwels S, De Smedt L, Huybrechts I, Devlieger R, Koppen G, Godderis L

LUNCH BREAK

ORAL PRESENTATIONS

Theme: GDM
Chairpersons: María del Pilar Ramos Álvarez & Dorte Møller Jensen

Contributions of bone marrow-derived mesenchymal (MSC) or hematopoietic (HSC) stem cells to compensatory β-cell expansion
Hill DJ, Waseem M, Strutt B, Eng E, Arany EJ

Women with previous gestational diabetes and current prediabetes have reduced incretin effect compared to normal glucose tolerant women with previous gestational diabetes

The relationship of single nucleotide polymorphisms to GDM and obesity
Craus J, Pace N, Savona-Ventura C, Vassallo J

Maternal characteristics and obstetrical outcomes in women with early onset gestational diabetes (GDM)
Metabolomic profiling suggests that intrinsic factors are important for metabolites associated with maternal metabolic phenotypes during pregnancy

Should A1C be used for the diagnosis of glucose tolerance disorders in women with history of gestational diabetes mellitus?
Anastasiou E, Apostolakis M, Papadimitriou A, Zapanti E, Vassileiou V, Saltiki A, Alevizaki M

15:30-16:00

COFFEE BREAK

16:00-17:30

ORAL PRESENTATIONS

Theme: OFFSPRING
Chairs: Martina Persson & David Hill

First evidence of human milk oligosaccharides in human cord blood and their effect on feto-placental endothelial cells
Jantscher-Krenn E, Aigner J, Lam U, van Poppel MNM, Desoye G

Broadspectrum antibiotics increases the risk of childhood type 1 diabetes in offspring delivered by cesarean section

Decreased gene expression of leptin, adiponectin and resistin in subcutaneous adipose tissue biopsies from adult offspring of women with diabetes in pregnancy

Cognitive consequences of intrauterine hyperglycaemia in adolescent offspring of women with type 1 diabetes: the EPICOM Study

DNA methylation and gene expression of PPARGC1A in muscle and fat tissue from adult offspring of women with diabetes in pregnancy
Offspring of women with type 1 or type 2 diabetes: growth up to the age of 14 years
Hammoud NM, Visser GHA, de Valk HW

17:30-17:45
FREE TIME

17:45-18:45
GDM SEMINAR
Theme: GDM: Still no consensus after all these years?
Chairpersons: Aidan McElduff & David McCance
- IADPSG Perspective: Robert Lindsay
- FIGO Perspective: David McIntyre
- NICE Perspective: Rudy Bilous

18:45-19:45
DPSG BUSINESS MEETING

20:00
DINNER
Saturday, Oct. 3rd

08:30-09:30  
Príncipe Room  
**KEYNOTE LECTURES**  
Chairs: Ute Schaefer-Graaf & Mireille Van Poppel  
**UPBEAT:** Ruth Bell  
*The DALI programme: Can GDM be prevented?*: David Simmons

09:30-10:30  
Príncipe Room  
**ORAL PRESENTATIONS**  
Theme: GDM  
Chairpersons: Fidelma Dunne & Lene Ringholm  
*Impact of lifestyle intervention for obese women during pregnancy on markers of maternal metabolic and inflammatory markers*  
Renault KM, Malchau Carlsen E, Nørgaard K, Haedersdal S, Nilas L, Secher NJ, Olsen SF, Halldorsson TI

*Differences in food intake and genetic variability in taste receptors between pregnant women with and without gestational diabetes mellitus*  

*Poor sleep quality and short sleep duration is associated with poor glucose control assessed by continuous glucose monitoring in women with gestational diabetes*  
Alnaji A, Ellison GTH, Law GR, Scott EM

*Insulin resistance and large amounts of visceral fat characterise women with previous gestational diabetes and non-alcoholic fatty liver disease*  

10:30-11:00  
**COFFEE BREAK**

11:00-13:00  
**PRESENTATIONS – GROUP 2 PARALLEL POSTERS**
<table>

<th><strong>Príncipe Room</strong></th>
<th><strong>Theme 1: TYPE 1 DIABETES</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Chairs:</strong> Rosa Corcoy and Harold De Valk</td>
<td></td>
</tr>
</tbody>
</table>

**Late pregnancy amniotic fluid erythropoietin (EPO) levels in women with and without type 1 diabetes**

**Acceptability of amniotic fluid erythropoietin measurement in late pregnancy in women with Type 1 Diabetes**

**Has breastfeeding repercussions on metabolic control in patients with type 1 diabetes mellitus?**
Picón César MJ, Molina Vega M, Cornejo Pareja I, Díaz Perdigones C, Tinahones Madueño FJ

**White’s classification predicts obstetric and perinatal outcomes in women with type 1 diabetes mellitus**
Klemetti MM, Laivuori H, Tikkanen M, Nuutila M, Hiilesmaa V, Teramo K

**RTCGM in pregnant women with type 1 diabetes: patient experiences and opinions**
Stolze MS, de Valk HW, Silvius B, Hoeks LBEA, Visser GHA

**Nationwide registry on use and effect of real-time CGM in pregnant women with type 1 diabetes in the Netherlands: first results**
de Valk HW, Silvius B for the BIDON-TRACING Study Group

**Using the bolus-calculator in pregnancies complicated by diabetes: an ever changing challenge**
de Valk HW, Hoeks LBEA, Visser GHA

**Current care and outcomes for women with pre-gestational diabetes: results from the first National Pregnancy in Diabetes Audit in England and Wales**
Holman N, Curnow P, Bell R, Murphy H, Maresh M, Lewis-Barned N

<table>

</tbody>
</table>

**Preliminary matrix-assisted laser desorption / ionization experiments on human placenta**
Influence of breastfeeding and prior gestational diabetes on continuous glucose monitoring profiles

Markers of endothelial function in women with gestational diabetes requiring medical hypoglycemic treatment
Zawiejska A, Wender-Ozegowska E, Borowska M, Bobkiewicz-Kozłowska T, Brązert J

GDM alters paracrine regulation of placental endothelial cells by trophoblast
Loegl J, Nussbaumer E, Hiden U, Huppertz B, Desoye G

Insulin treatment may enhance fatty acid carriers in placentas from gestational diabetes subjects

Polymorphisms in the gene for vitamin D receptor in women with gestational diabetes mellitus

The impact of optimal glycaemic management on fetal macrosomia and neonatal hypoglycaemia in women with gestational diabetes mellitus: A 3-year retrospective study

How do obese women with diabetes in pregnancy and gestational diabetes mellitus differ at booking?

How feasible is community screening for GDM?: The findings from a mixed methods randomised controlled trial
Principal Authors: O’Dea A, Dunne FP
Co-Authors: Tierney M, Danyliv A, Glynn L, McGuire BE, Carmody L, Newell J

The cost-effectiveness of the screening for gestational diabetes in primary and secondary care in the Republic of Ireland
Cristal Room

**Theme 3: OBESITY / TYPE 2 DIABETES**

Chairs: Marta Viana & Alexandra Kautzky-Willer

**Maternal aerobic fitness in late pregnancy exerts beneficial effects on maternal metabolism and indirectly on fetal fat depots**

Qvigstad E, Kardel K, Godang K, Voldner N, Henriksen T, Kolset SO, Bollerslev J

**Adipocytokines in placenta and cord blood in relation to maternal obesity, and fetal and postnatal growth of the child**

Allbrand M, Åman J, Lodefalk M

**Sedentary behavior in obese pregnant women is associated with inflammatory markers and lipid profile but not with glucose metabolism**

**Excessive gestational weight gain increases common carotid artery stiffness in pregnancy**

**Metabolomic analysis during pregnancy may help to predict future complications in the mother**

**Polyglandular autoimmune syndrome and pregnancy**

**Physical activity in the UK Better Eating and Physical Activity (UPBEAT) trial**

Bell R, Hayes L and Poston L on behalf of the UPBEAT consortium

**A randomised lifestyle intervention trial addressing physical activity and/or healthy eating in obese pregnant women: physical activity results of the DALI lifestyle study**

**ORAL PRESENTATIONS**

**Theme: TYPE 1 DIABETES**  
Chairpersons: Angela Napoli & Donald Pearson
